

## NPS Mission

- Organic Act: to preserve natural objects and wild life and provide for enjoyment in such manner as will leave them unimpaired for the enjoyment of future generations
- National Organic Rivers Act: to preserve all outstanding values in a free-flowing condition for enjoyment of present and future generations

(excerpts)

# Environmental Economics

- \$10-\$1 Return on Investment
- \$30 Billion into US Economy in 2014
- Surface/Groundwater/Water Quality Nexus
- Watershed System Management
- Interagency Collaboration
