

**EXECUTIVE COMMITTEE  
WORK PLAN  
July 1, 2024 to June 30, 2025**

**1. WGA/WSWC COORDINATION and COLLABORATION**

**Work to date:** The Western Governors’ Association (WGA) has adopted two comprehensive policy statements, one Water Resource Management in the West (2021-08) and the other Water Quality in the West (2021-10), as well as other policy statements with water-related implications.

The Council has worked closely with WGA on various regulatory and other issues, especially the Corp’s Water Supply Rule, EPA’s proposed and final rules related to Clean Water Act (CWA) jurisdiction and the definition of Waters of the United States, as well as the CWA 401 State Water Quality Certification.

WGA has taken the lead on some issues and deferred to the Council on other issues, such as tribal water rights settlements.

**2024-2025:** The Council and the Committee will continue to coordinate and consult with the WGA on matters that come before the Council and assist as requested in the development and implementation of WGA water-related policies. WGA staff are invited to attend and participate in our meetings, workshops and symposia. WGA and WSWC staff collaborate on a continuing basis.

As in the past, the Council may propose policy resolutions for WGA consideration. Further, the WSWC Chair and/or Executive Director will participate in WGA meetings as appropriate. Working with the WGA, the Council will also coordinate Western Federal Agency Support Team (WestFAST) activities and needs. WGA and WSWC will also work together as part of the Western Policy Network.

**Subcommittee:** Management Subcommittee

**Time Frame:** ongoing

**2. WESTFAST**

**Work to date:** The creation in 2008 of our Western States Federal Agency Support Team (WestFAST) has had many benefits. It is a unique forum for addressing western (and national) water issues that has brought together fifteen separate federal agencies to collaborate with each other and state agencies with water-related responsibilities. WestFAST addresses issues raised with the Council and WGA (which in turn support development and implementation of related federal policies and programs). WestFAST and the Council have also discussed collaborative federalism principles to guide federal/state working relationships.

**2024-2025:** The Executive Committee will continue to oversee the Council’s work with WestFAST. Further, the Committee will work to ensure participating agencies realize the real and

potential benefits of WestFAST, helping to build a sound foundation for continuing collaboration. The WSWC will meet regularly with WestFAST representatives and will continue building and maintaining closer ties with WestFAST principals. The Council will also advocate for continued WestFAST funding.

**Time Frame:** Ongoing

### **3. FEDERAL ADMINISTRATION and CONGRESSIONAL VISITS/CONTACTS**

**Work to date:** In an ongoing effort to promote WSWC and WGA positions and priorities, Council officers, members and staff often travel to Washington, D.C. to visit with Administration officials and Congressional members and staff. WSWC members and staff have also previously hosted or presented at briefings for congressional staff on the importance of federal data gathering activities, including Landsat thermal data, U.S. Geological Survey streamgaging programs, USDA's National Weather and Climate Center and its snow survey activities, National Oceanic and Atmospheric Administration programs (including the National Integrated Drought Information System and improving subseasonal to seasonal (S2S) precipitation forecasting), as well as Indian water rights settlements. Some of the feedback from these meetings has suggested a need for greater contact and communication between the Council and federal and congressional policymakers.

Of note, the Council is often invited to testify on proposed legislation. Further, the Council also distributes policy positions adopted at its meetings to House and Senate members of western state delegations, key Congressional leadership and staff, and senior Administration officials.

**2024-2025:** The Council will continue to communicate our positions with the Administration and the Congress. Future meetings when appropriate will be scheduled with Administration and Congressional contacts and advise them on major national water issues from the perspective of western states. The WestFAST Liaison Officer and WestFAST members will assist with and participate in visits with Executive Branch agencies. The WSWC will meet with WestFAST principals. Other trips and visits may be made as needed. The Council staff and members will also communicate our external positions as the need arises and continue to respond to requests for testimony, briefings and information from the Congress and the Administration.

**Subcommittee:** Management Subcommittee

**Time frame:** Ongoing

### **4. REGULAR COUNCIL MEETINGS**

**Work to date:** The first meeting of the Council was held in Stateline, Nevada in 1965, and regular meetings have been held since. Currently, the Council meets three times per year, rotating among the member states, which host the meetings at a location of their choice. During the pandemic, meetings were held virtually. One benefit of virtual and now hybrid meetings has been expanded participation and reduced meeting and travel costs. Guest speakers and topics for discussion are scheduled according to members' interests and needs. External policy positions for consideration

are noticed 30-days before the Council meets and are distributed not only to members, but also to WGA staff and the Governors' staff. Any position statement not noticed may be brought before the Council for consideration at a meeting by unanimous consent, but if approved, must be sent to WGA for review prior to distribution consistent with mutually agreed upon WGA and WSWC procedures for policy coordination.

**2024-2025:** The Spring 2023 meetings were held in Reno, Nevada late in May, and the Fall meetings scheduled in mid-September, in Anchorage, Alaska. Therefore, it was determined there would be no Summer 2023 meetings, nor would there be an attempt to schedule a winter meeting. Rather, the WSWC will meet in March 2024 in Washington, D.C. in collaboration with the Interstate Council on Water Policy (ICWP), with a joint roundtable meeting. Unlike past roundtables, the National Water Supply Association (NWSA) will not be joining us.

## **5. NEWSLETTER**

**Work to date:** *Western States Water* provides members and others with accurate and timely information on various water resources topics, activities and events at state, regional and national levels. It has been provided as a free service to members, governors and their staff, member state water resource agencies, state water users associations, selected multi-state organizations, key congressmen and their staffs, and top federal administration officials. A subscription fee for others has been discontinued. It is primarily distributed via email, and is posted on our website.

**2024-2025:** Along with the Council's regular meetings, the newsletter requires our most significant commitment of staff resources, though that is usually ancillary to other efforts. The response from members and others receiving the newsletter has been consistently positive. The Council will continue to provide this service weekly via email, except for those who request a hard copy.

**Time Frame:** Ongoing

## **6. WATER MANAGEMENT SYMPOSIA**

**Work to date:** An annual WSWC Water Management Symposium has traditionally been held under the auspices of the Executive Committee. However, the Committee has usually asked one of the other committees to take the lead. This includes a biennial Indian Water Rights Settlement Symposia cosponsored with the Native American Rights Fund. The last WSWC/NARF Symposium was held virtually in August 2023. The Executive Committee considers hosting symposia on any topic and issues as their importance merits.

In 2022-23, the Council held a number of meetings and webinars in collaboration with relevant federal agencies, multiple stakeholders, and public and private experts. This included exploring a potential regional approach to defining "Waters of the United States" (WOTUS), and a technical white paper summarizing the discussions was drafted. Further, a National Water Use Data Workshop was held. One goal is identifying common interests and promoting partnerships.

**2024-2025** The Legal Committee, under the direction of the Executive Committee, coordinated with NARF in sponsoring the 2023 Indian Water Rights Settlement Symposium, and in 2024 may consider other topics

**Time Frame** –2023-24

## 7. ANNUAL REPORT

**Work to date:** Since its organization in 1965, the Council has prepared and published an annual report, with a brief discussion of the Council’s formation and a detailed summary of its current membership and activities. It is a report of the Council’s meetings and provides an explanation of resolutions and positions and other actions taken by the Council. Further, it includes a description of workshops, seminars and symposia sponsored by the Council, as well as other important activities and events. It also describes the Council’s involvement in major current water policy issues. Lastly, biennially, it includes an audit of the Council’s finances, and current rules of organization. Recently, electronic copies have been distributed.

**2024-2025:** The staff will work on the current backlog of annual reports.

**Time frame:** October 2023-June 2024

## 8. HISTORICAL REVIEW: ISSUES & OUTCOMES

**Background:** The Council has positions addressing numerous issues and has taken various actions and invested significant resources in attempting to influence outcomes. While the annual report, newsletter, meeting minutes and other sources document such work, there has never been a comprehensive review of some of the major topics addressed and outcomes achieved. Such a summary evaluating the influence the Council has had on outcomes would be useful. The Council has been active in both administrative and congressional affairs, including federal regulatory matters and federal budgeting and appropriations processes. The Council has also provided a forum for states to learn from each other, as well as serving as a resource and catalyst for innovation, such as the WSWC Water Data Exchange. Selecting appropriate metrics for measuring results could be challenging.

**2024-2025:** The Committee will consider the best means of undertaking such a review and metrics for evaluating the Council’s influence on matters that have been brought before the Council. The Committee, given its oversight functions, will use the results of any summary to guide the investment of Council staff and budgetary resources.

**Subcommittee:**

**Time frame:**

## **9. STATE WATER AGENCY STAFFING AND RETENTION CONCERNS**

**Background:** During the Deadwood, South Dakota meeting in September 2021, various WSWC members raised concerns about hiring, training, and retaining technical and professional staff to carry out essential agency functions. Some turnover or lack of new applicants may be attributable to: (1) high specialization of western water challenges; (2) shuffling among state/federal agencies; (3) smaller salaries compared to the private sector; (4) limited advancement opportunities for mid-level staff; and (5) retirements, pandemic-related adjustments, and younger generation career-culture shifts. On October 22, 2021 and January 24, 2022, various WSWC members discussed challenges and potential solutions that the WSWC might work together to be able to accomplish.

**2024-2025:** The Committee will consider: (1) a brief survey of states to identify obstacles, with the intent to create a report that may be utilized to demonstrate the staffing needs of state water agencies across the West; (2) a mechanism for sharing job postings at state water agencies across the West that is cost-effective; and (3) developing a pipeline of incoming staff by introducing a younger generation of potential employees to day-to-day work of technical and professional staff, complex western water challenges, and benefits beyond salaries (e.g., through webinar series, cooperation with universities or other organizations).

**Subcommittee:** Henry Brooks, Jerry Rigby, Mary Anne Nelson, Connie Owen, Earl Lewis, Matt Unruh, Jesse Bradley, Sara Gibson, Jeanne Goodman, Kathy Alexander, Kim Nygren, Jeff Cowley

**Time frame:**
