

FS Agreement No. _____

26-MU-11020000-005

Cooperator Agreement No. _____

MEMORANDUM OF UNDERSTANDING
Between The
WYOMING DEPARTMENT OF ENVIRONMENTAL QUALITY
And The
USDA, FOREST SERVICE
ROCKY MOUNTAIN REGION AND INTERMOUNTAIN REGION

This MEMORANDUM OF UNDERSTANDING (MOU) is hereby made and entered into by and between the Wyoming Department of Environmental Quality hereinafter referred to as “WDEQ,” and the United States Department of Agriculture (USDA), Forest Service, Rocky Mountain Region and Intermountain Region, hereinafter referred to as the “Forest Service.”

Title: Management of water quality on National Forest System (NFS) lands in Wyoming

I. PURPOSE: The purpose of this MOU is to document the cooperation between the parties to protect water quality and designated uses in waterbodies on NFS lands in Wyoming, consistent with WDEQ requirements for water quality protection and U.S. Forest Service requirements to administer NFS lands, including protecting water quality. Water quality will be protected by meeting state water quality standards, protecting designated uses of water, and complying with any state environmental permitting requirements. This MOU is not to be construed as a contract for purposes of the federal Contract Disputes Act, 41 U.S.C. § 614 et seq. This MOU defines agency responsibilities in implementing the Wyoming Nonpoint Source Management Program and in achieving federal compliance with Sections 313 and 319(k) of the Clean Water Act (33 U.S.C. § 1323 and 33 U.S.C. § 1329) on NFS lands in Wyoming. Actions taken pursuant to this MOU, unless otherwise actionable, are not considered final agency actions pursuant to 7 U.S.C. § 6912(e). in accordance with the following provisions.

II. STATEMENT OF MUTUAL BENEFIT AND INTERESTS:

The State of Wyoming is responsible under the Clean Water Act for protecting water quality. WDEQ is the agency responsible under Wyo. Stat. Ann. § 35-11-109(a)(i) for administering the State water quality programs to carry out the purposes of the Wyoming Environmental Quality Act (WEQA). Wyo. Stat. Ann. § 35-11-102 declares the purpose for WDEQ to be to protect, maintain, and improve the quality of the State's waters in accordance with the rules and regulations established by the State of Wyoming and to secure the cooperation of the federal government in carrying out these objectives.

In the Organic Administration Act of 1897, a principal purpose for establishment of the Forest Reserves (predecessor to the National Forest System) was to “secure favorable conditions of water flows.” The U.S. Forest Service is charged by Congress with administering over 9.2 million acres of NFS lands in the State of Wyoming under various federal laws. Land management activities and other authorized uses of NFS lands may be the source of pollutants that can degrade water quality and impair designated uses of

water. The U.S. Forest Service, under Section 313 of the federal Clean Water Act (33 U.S.C. § 1323), is subject to, and shall comply with, all state requirements respecting the control and abatement of water pollution in the same manner and to the same extent as any non-governmental entity.

Protecting water quality and designated uses of water on NFS lands requires coordination and cooperation between WDEQ, the U.S. Forest Service, and other interested stakeholders. There are numerous federal and state laws and local regulations pertaining to the management of land and water resources. Collaborative efforts consistent with those laws and regulations will promote the most effective management of water resources and will enhance benefits to the public. It is in the public interest to find reasonable solutions to challenging water quality issues under cooperative agreements.

In consideration of the above premises, the parties agree as follows:

III. WDEQ SHALL:

A. NONPOINT SOURCE POLLUTION (NPS) CONTROL

1. Support implementation of the U.S. Forest Service NPS strategy as compliance with the Wyoming Nonpoint Source Management Program, applicable sections of the Wyoming Environmental Quality Act, and the federal Clean Water Act.
2. Approve the use of Best Management Practices (BMPs) contained in “National Best Management Practices for Water Quality on National Forest System Lands, Volume 1: National Core BMP Technical Guide” (FS-990a), Forest Service Handbook (FSH) 2509.25 R2 Amendment [Watershed Conservation Practices (WCP) Handbook] for NFS lands in Region 2, and FSH 2509.22 R1/R4 Amendment [Soil and Water Conservation Practices Handbook] for NFS lands in Region 4 as meeting the requirements of the BMPs in the Wyoming Nonpoint Source Management Plan.
3. Conduct periodic field reviews jointly with the U.S. Forest Service of various watersheds and activities on NFS lands to evaluate implementation and effectiveness of BMPs on the ground. Based on these reviews, BMPs may be jointly adjusted to improve protection of water quality, or joint recommendations may be made to adopt site-specific water quality standards or to adjust use designations. Recommendations to change water quality standards or use designations would be subject to WDEQ regulatory procedures.

B. PROJECT PLANNING

1. Review U.S. Forest Service projects and activities that may have an effect on water quality and provide timely comments in accordance with the established State Clearinghouse Procedures and the U.S. Forest Service National Environmental Policy Act (NEPA) process.
2. Review and consult or cooperate with the U.S. Forest Service on projects and activities on NFS lands proposed by public or private proponents that may have an effect on water quality in accordance with the U.S. Forest Service National Environmental Policy Act (NEPA) process. These projects generally are not included in the established State Clearinghouse Procedures. This provision meets the purposes and objectives of the WEQA under Wyo. Stat. Ann. §§ 35-11-102 & 109(a)(ii).
3. Contact the U.S. Forest Service during the planning process for any project WDEQ is involved in that may affect NFS lands and resources.

C. WYOMING WATER QUALITY STANDARDS

1. Provide applicable draft water quality rules and regulations to the U.S. Forest Service for review during their development, and final rules and regulations for guidance after promulgation.
2. Promptly notify the U.S. Forest Service if WDEQ suspects water quality standards are being exceeded or designated uses are being impaired by nonpoint sources on NFS lands. If appropriate, WDEQ and U.S. Forest Service will jointly evaluate and attempt to properly and expeditiously address the situation.
3. Cooperate with the U.S. Forest Service to determine what actions are necessary, if any, to address the issue if a situation described in clause “2” above arises, or if a water body on NFS lands is listed as impaired on the 303(d) list. These actions may include, but are not limited to, water quality monitoring, refining BMPs, changes to water quality standards, or establishment of a stakeholder group to investigate the situation and recommend actions to be taken.
4. Cooperate with the U.S. Forest Service on development and implementation of Total Maximum Daily Loads (TMDLs) and TMDL implementation plans for impaired waterbodies on NFS lands.

D. WATER QUALITY RESTORATION

1. Work cooperatively with the U.S. Forest Service in setting priorities for watershed restoration strategies for watersheds not meeting water quality or natural resource goals.

2. Agree that Section 319 funds may be used for any project on NFS lands meeting Section 319 criteria if a non-federal entity agrees to contribute the funds or in-kind services needed for the required match (currently a minimum of 40% non-federal funds). Such a contribution and grant award would have to be authorized and documented in an appropriate written agreement, separate from this MOU. Also see paragraph V.F. below.

E. MONITORING/CREDIBLE DATA

1. Coordinate with the U.S. Forest Service on present and proposed water quality monitoring plans and activities adjacent to or within NFS boundaries using consistent scientific approaches when applicable and appropriate.
2. Cooperate with the U.S. Forest Service in the collection, analysis, and processing of water quality samples when the information to be derived will be mutually beneficial to both parties.
3. Routinely make available to the U.S. Forest Service any water quality data and information.

F. POINT SOURCE PERMITTING

1. Support the U.S. Forest Service with oversight of special use permits to help permittees comply with applicable WDEQ water quality rules and the federal Clean Water Act.
2. Promptly notify the U.S. Forest Service local Hydrologist using appended contact list when water quality violations by NFS permittees on NFS land are reported to WYPDES.
3. Cooperate with the U.S. Forest Service to determine what actions are necessary, if any, to address the issue if a situation described in clause "2" above arises.

G. RECORD KEEPING AND OWNERSHIP OF DATA

1. Keep pertinent records, data, and information in good order and available to the U.S. Forest Service and the public in conformance with the Wyoming Public Records Act (Wyoming Statutes 16-4-201 through 16-4-205).
2. Agree that any information furnished to the U.S. Forest Service under this MOU is subject to the Freedom of Information Act (5 U.S.C. § 552).

H. GENERAL ACTIVITIES

1. Agree to provide, upon request, technical expertise and support not otherwise available to the U.S. Forest Service, to the extent that WDEQ's authority, program, priorities, budget, and availability of expertise allow.
2. Agree to share training opportunities.

I. REVIEWS AND REPORTS

1. Meet at least every two years with the U.S. Forest Service to review the MOU's provisions and effectiveness, explore coordination needs and identify new objectives or other needed changes to the MOU.
2. Provide jointly prepared status report on the MOU to EPA as part of their report required under Section 319(h) of the federal Clean Water Act.

IV. THE FOREST SERVICE SHALL:

A. NONPOINT SOURCE POLLUTION CONTROL

1. Recognize Wyoming Nonpoint Source Management Program objectives and be responsible for implementing NPS pollution controls consistent with the Wyoming Nonpoint Source Management Program on NFS lands in Wyoming.
2. Apply the U.S. Forest Service NPS strategy (Forest Service Manual 2532, FSH 2509.25 R2 Amendment and FSH 2509.22 R1/R4 Amendment) to all activities on NFS land to control NPS pollution. The NPS strategy is to implement BMPs, monitor the implementation and effectiveness of BMPs in protecting water quality and designated uses, and adjust BMPs or mitigate actions as needed to ensure that Wyoming water quality standards are met and designated uses are protected.
3. Ensure that all new and renewed authorizations for occupancy and use of NFS lands contain provisions for compliance with the Wyoming Nonpoint Source Management Program.
4. Provide draft FSH 2509.25 R2 Amendment and FSH 2509.22 R1/R4 Amendment to WDEQ for review during the updates of these handbooks. That the U.S. Forest Service agrees to provide these draft Amendments to WDEQ is not to be construed as designating these Amendments formal rules for purposes of the Administrative Procedure Act, 5 U.S.C. § 553.
5. Monitor BMPs on selected activities for implementation and effectiveness using U.S. Forest Service national BMP monitoring protocols and share monitoring results with WDEQ biannually in conjunction with the U.S.

Forest Service BMP monitoring schedule. These results may be used to select areas to be jointly field reviewed.

6. Conduct periodic field reviews jointly with WDEQ of various watersheds and activities on NFS lands to evaluate implementation and effectiveness of BMPs on the ground. Based on these reviews, BMPs may be jointly adjusted to improve protection of water quality, or joint recommendations may be made to adopt site-specific water quality standards or to adjust use designations. Recommendations to change water quality standards or use designations would be subject to WDEQ regulatory procedures.

B. PROJECT PLANNING

1. Provide WDEQ appropriate and timely opportunity to participate, through the applicable National Environmental Policy Act and the State Clearinghouse Procedures, in proposed project and activity plans that have potential to impact water quality.

C. WYOMING WATER QUALITY STANDARDS

1. Recognize Wyoming's identified designated uses of water.
2. Be responsible for attaining water quality standards on NFS lands in Wyoming.
3. Coordinate and cooperate, to the extent consistent with applicable law, with WDEQ during development and revision of water quality standards.
4. Notify WDEQ if the U.S. Forest Service suspects water quality standards are being exceeded or designated uses are being impaired by nonpoint sources on NFS lands by its or other authorized user's activities, or if the U.S. Forest Service is so notified by some other party. If appropriate, WDEQ and U.S. Forest Service will jointly evaluate and attempt to properly and expeditiously address the situation.
5. Cooperate with WDEQ to determine what actions are necessary, if any, to address the issue if a situation described in clause "4" above arises, or if a water body on NFS lands is listed as impaired on the 303(d) list. These actions may include, but are not limited to, water quality monitoring, refining BMPs, changes to water quality standards, or establishment of a stakeholder group to investigate the situation and recommend actions to be taken.
6. Cooperate with WDEQ on development and implementation of TMDLs and TMDL implementation plans for impaired waterbodies on NFS lands.

D. WATER QUALITY RESTORATION

1. Work cooperatively with the WDEQ in setting priorities for watershed restoration strategies for watersheds not meeting water quality or natural resource goals.
2. Agree that lack of Section 319 funds awarded to the U.S. Forest Service does not relieve the agency from its responsibility to apply BMPs where needed.

E. MONITORING/CREDIBLE DATA

1. Coordinate with WDEQ on present and proposed water quality monitoring plans and activities adjacent to or within NFS boundaries using consistent scientific approaches when applicable and appropriate.
2. Cooperate with WDEQ in the collection, analysis, and processing of water quality samples when the information to be derived will be mutually beneficial to both parties.
3. Routinely make available to WDEQ any water quality data and information.

F. POINT SOURCE PERMITTING

1. Notify WDEQ if the U.S. Forest Service suspects water quality standards are being exceeded or designated uses are being impaired by point sources on NFS lands by its or other authorized user's activities, or if the U.S. Forest Service is so notified by some other party. If appropriate, WDEQ and U.S. Forest Service will jointly evaluate and attempt to properly and expeditiously address the situation.
2. Cooperate with WDEQ to determine what actions are necessary, if any, to address the issue if a situation described in clause "1" above arises.

G. RECORD KEEPING AND OWNERSHIP OF DATA

1. Keep pertinent records, data, and information in good order and available to WDEQ and the public in conformance with the Freedom of Information Act and the Privacy Act.
2. Agree that any information furnished to WDEQ under this MOU is subject to the Wyoming Public Records Act (Wyo. Stat. Ann. § 16-4-201, et seq.).

H. GENERAL ACTIVITIES

1. Agree to provide, upon request, technical expertise and support not otherwise available to WDEQ, to the extent that the U.S. Forest Service's authority, program, priorities, budget, and availability of expertise allow.
2. Agree to share training opportunities.

I. REVIEWS AND REPORTS

1. Meet at least every two years with WDEQ to review the MOU's provisions and effectiveness, explore coordination needs and identify new objectives or other needed changes to the MOU.
2. Provide WDEQ with information on nonpoint source control activities as part of the reporting procedures established by Sections 319(a) and 319(b) of the federal Clean Water Act.

V. **IT IS MUTUALLY UNDERSTOOD AND AGREED BY AND BETWEEN THE PARTIES THAT:**

- A. PRINCIPAL CONTACTS. Individuals listed below are authorized to act in their respective areas for matters related to this agreement.

Principal Cooperator Contacts:

Cooperator Program Contact	Cooperator Administrative Contact
David Waterstreet, Watershed Protection Section Manager 200 West 17th Street Cheyenne, WY 82002 Telephone: 307 777 6709 FAX: 307 635 1784 Email: david.waterstreet@wyo.gov	Gina Thompson, WQD Information Management Services 200 West 17th Street Cheyenne, WY 82002 Telephone: 307 777 5632 FAX: 307 635 1784 Email: gina.thompson@wyo.gov
Cooperator Program Contact	
Jason Thomas, WYPDES Section Manager 200 West 17th Street Cheyenne, WY 82002 Telephone: 307 777 5504 FAX: 307 635 1784 Email: jason.thomas@wyo.gov	

Principal Forest Service Contacts:

Forest Service Program Manager Contact	Forest Service Administrative Contact
Karen Wait, Water Quality Hydrologist, R2 1617 Cole Blvd., Bldg. 17 Lakewood, CO 80401 Telephone: 303 941 6316 FAX: 303 275 5075 Email: karen.wait@usda.gov	John Hefner Grants Management Specialist, R2 1617 Cole Blvd., Bldg. 17 Lakewood, CO 80401 Telephone: 775 720-6995 Email: john.hefner@usda.gov
	Arlene Ardant Grants Management Specialist, R4 1249 S Vinnell Way Ste 200 Boise, ID 83709 Telephone: 208-871-6203 Email: arlene.alandt@usda.gov

- B. **NOTICES.** Any communications affecting the operations covered by this agreement given by the Forest Service or WDEQ is sufficient only if in writing and delivered in person, mailed, or transmitted electronically by e-mail or fax, as follows:

To the Forest Service Program Manager, at the address specified in the MOU.

To Watershed Protection Section Manager, at WDEQ's address shown in the MOU or such other address designated within the MOU.

Notices are effective when delivered in accordance with this provision, or on the effective date of the notice, whichever is later.

- C. **PARTICIPATION IN SIMILAR ACTIVITIES.** This MOU in no way restricts the Forest Service or WDEQ from participating in similar activities with other public or private agencies, organizations, and individuals.
- D. **ENDORSEMENT.** Any of WDEQ's contributions made under this MOU do not by direct reference or implication convey Forest Service endorsement of WDEQ's products or activities.
- E. **NONBINDING AGREEMENT.** This MOU creates no right, benefit, or trust responsibility, substantive or procedural, enforceable by law or equity. The parties shall manage their respective resources and activities in a separate, coordinated and mutually beneficial manner to meet the purpose(s) of this MOU. Nothing in this MOU authorizes any of the parties to obligate or transfer anything of value.

Specific, prospective projects or activities that involve the transfer of funds, services, property, to a party requires the execution of separate agreements and are contingent upon numerous factors, including, as applicable, but not limited to: agency availability of appropriated funds and other resources; cooperator availability of funds and other resources; agency and cooperator administrative and legal requirements (including agency authorization by statute); etc. This MOU neither provides, nor meets these criteria. If the parties elect to enter into an obligation agreement that involves the transfer of funds, services, property, and/or anything of value to a party, then the applicable criteria must be met. Additionally, under a prospective agreement, each party operates under its own laws, regulations, and/or policies, and any Forest Service obligation is subject to the availability of appropriated funds and other resources. The negotiation, execution, and administration of these prospective agreements must comply with all applicable law.

Nothing in this MOU is intended to alter, limit, or expand the agencies' statutory and regulatory authority.

- F. USE OF FOREST SERVICE INSIGNIA. In order for WDEQ to use the Forest Service insignia on any published media, such as a Web page, printed publication, or audiovisual production, permission must be granted from the Forest Service's Office of Communications. A written request must be submitted and approval granted in writing by the Office of Communications (Washington Office) prior to use of the insignia.
- G. MEMBERS OF U.S. CONGRESS. Pursuant to 41 U.S.C. 22, no U.S. member of, or U.S. delegate to, Congress shall be admitted to any share or part of this agreement, or benefits that may arise therefrom, either directly or indirectly.
- H. FREEDOM OF INFORMATION ACT (FOIA). Public access to MOU or agreement records must not be limited, except when such records must be kept confidential and would have been exempted from disclosure pursuant to Freedom of Information regulations (5 U.S.C. 552).
- I. TEXT MESSAGING WHILE DRIVING. In accordance with Executive Order (EO) 13513, "Federal Leadership on Reducing Text Messaging While Driving," any and all text messaging by Federal employees is banned: a) while driving a Government owned vehicle (GOV) or driving a privately owned vehicle (POV) while on official Government business; or b) using any electronic equipment supplied by the Government when driving any vehicle at any time. All cooperators, their employees, volunteers, and contractors are encouraged to adopt and enforce policies that ban text messaging when driving company owned, leased or rented vehicles, POVs or GOVs when driving while on official Government business or when performing any work for or on behalf of the Government.

- J. TRIBAL EMPLOYMENT RIGHTS ORDINANCE (TERO). The Forest Service recognizes and honors the applicability of the Tribal laws and ordinances developed under the authority of the Indian Self-Determination and Educational Assistance Act of 1975 (PL 93-638).
- K. FOREST SERVICE ACKNOWLEDGED IN PUBLICATIONS, AUDIOVISUALS AND ELECTRONIC MEDIA. WDEQ shall acknowledge Forest Service support in any publications, audiovisuals, and electronic media developed as a result of this MOU.
- L. NONDISCRIMINATION STATEMENT – PRINTED, ELECTRONIC, OR AUDIOVISUAL MATERIAL. WDEQ shall include the following statement, in full, in any printed, audiovisual material, or electronic media for public distribution developed or printed with any Federal funding.

In accordance with Federal law and U.S. Department of Agriculture policy, this institution is prohibited from discriminating on the basis of race, color, national origin, sex, age, or disability. (Not all prohibited bases apply to all programs.)

To file a complaint of discrimination, write USDA, Director, Office of Civil Rights, Room 326-W, Whitten Building, 1400 Independence Avenue, SW, Washington, DC 20250-9410 or call (202) 720-5964 (voice and TDD). USDA is an equal opportunity provider and employer.

If the material is too small to permit the full statement to be included, the material must, at minimum, include the following statement, in print size no smaller than the text:

"This institution is an equal opportunity provider."

- M. TERMINATION. Any of the parties, in writing, may terminate this MOU in whole, or in part, at any time before the date of expiration.
- N. DEBARMENT AND SUSPENSION. WDEQ shall immediately inform the Forest Service if they or any of their principals are presently excluded, debarred, or suspended from entering into covered transactions with the federal government according to the terms of 2 CFR Part 180. Additionally, should WDEQ or any of their principals receive a transmittal letter or other official Federal notice of debarment or suspension, then they shall notify the Forest Service without undue delay. This applies whether the exclusion, debarment, or suspension is voluntary or involuntary.

- O. MODIFICATIONS. Modifications within the scope of this MOU must be made by mutual consent of the parties, by the issuance of a written modification signed and dated by all properly authorized, signatory officials, prior to any changes being performed. Requests for modification should be made, in writing, at least 30 days prior to implementation of the requested change.
- P. COMMENCEMENT/EXPIRATION DATE. This MOU is executed as of the date of the last signature and is effective through five years from the date of last signature, at which time it will expire.
- Q. AUTHORIZED REPRESENTATIVES. By signature below, each party certifies that the individuals listed in this document as representatives of the individual parties are authorized to act in their respective areas for matters related to this MOU.

In witness whereof, the parties hereto have executed this MOU as of the last date written below.

Paperwork Reduction Act Statement

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond, to a collection of information unless it displays a valid OMB control number. Persons are not required to respond to this collection of information unless it displays a currently valid OMB control number. The OMB control number for this information collection is 0596-0217. Response to this collection of information is mandatory. The authority to collect the information Section 7 of the Granger-Thye Act (16 U.S.C. 580d) and Title IV of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1751-1753). The time required to complete this information collection is estimated to average 3 hours per response, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: U.S. Department of Agriculture, Clearance Officer, OIRM, 1400 Independence Avenue, SW, Room 404-W, Washington, D.C. 20250; and to the Office of Management and Budget, Paperwork Reduction Project (OMB# 0596-0217), 725 17th Street NW, Washington, D.C. 20503.

In accordance with Federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, gender identity (including gender expression), sexual orientation, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident.

Persons with disabilities who require alternative means of communication for program information (e.g., Braille, large print, audiotape, American Sign Language, etc.) should contact the responsible agency or USDA's TARGET Center at (202) 720-2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877-8339. Additionally, program information may be made available in languages other than English.

To file a program discrimination complaint, complete the USDA Program Discrimination Complaint Form, AD-3027, found online at [How to File a Program Discrimination Complaint](#) and at any USDA office or write a letter addressed to USDA and provide in the letter all of the information requested in the form. To request a copy of the complaint form, call (866) 632-9992. Submit your completed form or letter to USDA by: (1) mail: U.S. Department of Agriculture, Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue, SW, Washington, D.C. 20250-9410; (2) fax: (202) 690-7442; or (3) email: program.intake@usda.gov.

USDA is an equal opportunity provider, employer, and lender.

The Privacy Act of 1974, 5 U.S.C. 552a and the Freedom of Information Act, 5 U.S.C. 552 govern the confidentiality to be provided for information received by the Forest Service.
